We can do the training over the telephone

You may choose to begin with a free, fifteen-minute initial consultation to determine how and if we can work together. During this initial consultation, we can plan a customized media-training program to meet your specific objectives.

If you decide to work with me, there are two parts to media training, and you may choose either or both.

Part One shows you how to find the names of people to contact and what you should include in the package you send them.

Part Two shows you how to prepare for your appearances, and then we will conduct mock interviews showing you how to make the most powerful presentation on the air using your new communication skills.

Take one or both parts
