

Plantable Paper

Now you can have bookmarks, greeting cards and even pages in your book that your customers can actually plant! Flowers will grow and the people will think of you whenever they see them.

Your message is printed on 100% recycled linen paper

Present a green image to all your customers

Create a custom shape to communicate the best message

Print a page in your book on “plantable paper”

Ideal For – Bookmarks, page inserts, direct mail, trade show invitations, new book introductions, holiday greeting cards, thank you cards, romance cards, customer appreciation, home and garden events, earth day events, weddings, showers, awareness causes and special events related to your book’s message.

By using 100% re-cycled cotton scraps to make our paper, we are helping to conserve the world’s forests. No trees are cut down to produce this seed-filled paper. The paper dissolves into soil as the flowers grow and can be planted year round indoors. Unlike hard to grow wildflowers, we use flower seeds that will sprout in a week or less, and produce beautiful blooms quickly.

Create a custom Holiday card or thank-you note with your book’s cover on it. Or choose one of our stock shapes as shown here.

Paper Colors

Our current stock paper colors are Natural, Red, Blue, Yellow, Green and Pink.
